DETAILED ACTION

Priority

1. Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d).

Information Disclosure Statement

2. The listing of the Korean references in the specification [2003-0041002 and 10-0247116 in Paragraphs 9 and 11] is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609.04(a) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

Allowable Subject Matter

3. Claims 1-3 are allowed as presented by the applicant. The following is a statement of reasons for the indication of allowable subject matter. Regarding Claim 1, the prior art discloses most of the claimed invention; however, the prior art does not expressly disclose a tightening land formed between an upper end of said external tightening thread and said seal ring mounting part.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: see PTO-892 Notice of References Cited.

5. This application is in condition for allowance except for the following formal matters: the Korean references placed in the specification.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
